Fairview Township Non-Uniformed Employees' Pension Plan
Actuarial Valuation as of January 1, 2008
Comments and Certification

The purpose of the valuation report is to determine the actuarial status of the Plan. This report will not serve as the basis for satisfying any reporting requirements under Act 205.

The Summary of Principal Plan Benefit Provisions page provides a summary of the basic plan benefit provisions in effect as of January 1, 2008. A service increment benefit has been added to the Plan equal to \$100 per month for each completed year of benefit service in excess of 25 years, up to a maximum of \$300 additional per month. Also, a deferred retirement option program has been added to the Plan such that an active member who has attained age 60 and completed 25 years of vesting service may elect to participate in the deferred retirement option program for a period of not less than 3 months nor more than 24 months. His monthly pension shall be calculated as of his date of participation in the deferred retirement option program and shall be accumulated with 5.0% interest per annum and distributed in a lump sum at retirement.

The Actuarial Assumptions and Methods page is a summary of actuarial assumptions and methods used in determining the actuarial status of the Plan.

Section 1 of the report provides a summary of plan assets and summary of plan membership.

The market value of the fund as of December 31, 2007, is \$4,158,330. This includes Voluntary Employee Contribution Accounts totaling \$9,115.30. The net dollar-weighted rate of investment return during 2007 was 5.73%.

As of January 1, 2008, there are 27 active members with total annual payroll of \$1,229,917. There are also 6 retired members currently receiving benefits under the Plan totaling \$80,971 annually, 1 disabled member currently receiving benefits under the Plan totaling \$21,213 annually, 2 spouse beneficiaries of deceased members currently receiving benefits under the Plan totaling \$28,831 annually and 7 vested former members entitled to deferred benefits under the Plan totaling \$13,635 annually.

Section 2 of the report provides the Act 205 funding calculations.

As of January 1, 2008, there is an unfunded actuarial accrued liability under the Plan of \$702,992. The normal cost of the Plan, which is the cost of benefits being accrued during the current year, is \$189,066, which is 15.4% of annual payroll.

Page 3 of Section 2 shows the analysis of the change in the unfunded actuarial accrued liability from January 1, 2007, to January 1, 2008. There was an actuarial gain during the period of \$6,879. The unfunded actuarial accrued liability also increased by \$175,513 due to the changes in the plan benefit provisions.

Fairview Township Non-Uniformed Employees' Pension Plan
Actuarial Valuation as of January 1, 2008
Comments and Certification

Page 4 of Section 2 illustrates the minimum municipal obligation for the Plan. The financial requirement of the Plan is \$318,784. This includes the normal cost, \$189,066, assumed annual administrative expenses, \$31,192, and amortization of the unfunded actuarial accrued liability, \$98,526. The financial requirement is reduced by expected member contributions to the Plan during 2008, \$24,598. This results in a minimum municipal obligation of \$294,186. If the Township allocates \$78,547 of general municipal pension system State aid received during 2008 to the Plan, there is a net minimum municipal obligation of \$215,639. This calculation of the minimum municipal obligation is for illustrative purposes only since the calculation of the minimum municipal obligation for purposes of determining the Township's required contribution to the Plan is prepared through the budgeting process by September 30 each year for the upcoming calendar year.

Page 5 of Section 2 indicates the actuarial present value of accumulated plan benefits. As of January 1, 2008, the total actuarial present value of accumulated plan benefits is \$3,783,109. This compares to net assets available for benefits of \$4,158,330.

Section 3 of the report provides supplemental information for reporting under Governmental Accounting Standards Board Statements No. 25 and 27.

Section 4 of the report provides information on the plan participants.

Actuarial Certification

To the best of my knowledge this report is complete and accurate, based upon the data furnished to us. The data with respect to receipts and disbursements and assets of the Plan was furnished by Mellon Bank, N.A. The data with respect to participants and beneficiaries was furnished by Fairview Township. The data has been reviewed and has been determined to be reasonable.

The information as contained in this report is a projection of liabilities based upon stated assumptions and is not an exact statement of the Plan's ultimate benefits and liabilities. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; changes in economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for these measurements (such as at the end of an amortization period or additional cost or contribution requirements based on the Plan's funded status); and changes in plan provisions or applicable law. Due to the limited scope of the assignment, an analysis of the potential range of such future measurements was not performed.

I certify that all costs, liabilities, rates of interest, and other factors under the Plan in Section 2 of the report have been determined on the basis of actuarial assumptions and methods, each of which is reasonable (taking into account the experience of the Plan and reasonable expectations) or which, in the aggregate, result in a total contribution equivalent to that which would be determined if each such assumption and method were reasonable, and which, in combination, offer my best estimate of anticipated experience under the Plan.

Fairview Township Non-Uniformed Employees' Pension Plan
Actuarial Valuation as of January 1, 2008
Comments and Certification

An approximation technique for the valuation of the disability benefit has been utilized due to the unavailability of any generally accepted disability table based upon municipal pension experience. The approximation technique for the valuation of the disability benefit is a loading factor of 5.00% added to basic pension costs. This same approximation technique has been used in prior actuarial valuations of the Plan. It is my best estimate that the use of the approximation technique will cause little or no distortion in the valuation results.

Fairview Township Non-Uniformed Employees' Pension Plan
Actuarial Valuation as of January 1, 2008
Summary of Principal Plan Benefit Provisions

Eligibility

A full-time non-uniformed employee of the Township joins the Plan on his date of employment.

Normal Retirement

A Class 2 employee is eligible for normal retirement after attainment of age 65, or after attainment of age 60 and completion of 25 years of vesting service, if earlier. A Class 1 employee is eligible for normal retirement after attainment of age 60 or completion of 25 years of vesting service, if earlier.

The normal retirement pension is payable monthly during the member's lifetime, with payments guaranteed for the first 120 months.

The amount of monthly pension is equal to 2.0% of average monthly compensation multiplied by the number of years of benefit service completed by the member at retirement, up to a maximum of 25 years. For members hired prior to January 1, 2001, the amount of monthly pension is equal to 1.5% of average monthly compensation multiplied by the number of years of benefit service completed by the member at retirement, if greater. Also, a service increment is provided equal to \$100 per month for each completed year of benefit service in excess of 25 years, up to a maximum of \$300 additional per month.

Average monthly compensation is based upon the final plan year preceding retirement.

Late Retirement

If a member continues working after his normal retirement date, his pension does not start until he actually retires. The monthly late retirement pension is equal to the benefit accrued to the late retirement date.

Early Retirement

A member is eligible for early retirement after attainment of age 55. The monthly early retirement pension is equal to the benefit accrued to the date of early retirement, reduced 1/2 of 1% for each month early.

Disability Retirement

If an active member becomes totally and permanently disabled and qualifies for Social Security disability payments, he is eligible for a disability pension. The monthly disability pension is equal to the benefit accrued to the date of disability.

Deferred Retirement Option Program

An active member who has attained age 60 and completed 25 years of vesting service may elect to participate in the deferred retirement option program for a period of not less than three months nor more than 24 months. His monthly pension shall be calculated as of his date of participation in the

Fairview Township Non-Uniformed Employees' Pension Plan
Actuarial Valuation as of January 1, 2008
Summary of Principal Plan Benefit Provisions

deferred retirement option program and shall be accumulated with 5.0% interest per annum and distributed in a lump sum at retirement.

Postretirement Cost-of-Living Increase

An annual cost-of-living increase equal to the percentage increase in the "Wage Earner Index" in the Consumer Price Index during the preceding calendar year, up to a maximum of 3.0%, is made to retirees and beneficiaries, with a maximum total cost-of-living increase of 30%.

Death Benefits

The death benefit for an active member is a refund of his contributions with interest.

Vesting

A member's benefits are always 100% vested. The vested benefit is a deferred monthly pension beginning at normal retirement equal to the benefit accrued to the date of termination. The member may elect a lump sum cash settlement in lieu of a deferred pension.

Accrued Pension

The benefit accrued at any date other than the normal retirement date is determined by the normal retirement benefit formula, but based upon compensation and years of benefit service to the date of determination.

Contributions

Members contribute 2.0% of compensation.

Member contributions are credited with 5.0% interest.
